

Khandaker Rasel

...

Product Designer | User Experience designer

Email: khandaker.uiux@gmail.com

Nikla Kodim, Nikla, Bhuapur, Tangail, Bangladesh.

About Myself

A highly creative UX/UI designer with over 9 years of experience passion for technology. Possess a strong portfolio of successful projects demonstrating user-centered design methodologies and flawless execution. Expertise in conducting user research and usability testing. Worked in collaboration with multiple teams from a variety of disciplines.

Also, I am a passionate Designer with experience in wireframing, UI patterns, and user flows. For the past year, I have worked as a UX Designer at a Design agency. I helped develop tools such as a customizable management system and a new web portal.

My point of view, and a few thoughts on product design

I care about the details and consider the motion design of affordances to be crucial in creating effective, intuitive interfaces. I like prototyping – it helps me think through interaction models and new possibilities. I enjoy seeing things from a fresh perspective

Skills and Abilities

I have experience working with teams to brainstorm and whiteboard concepts. I can create wireframes at varying levels of fidelity, and enjoy prototyping ideas. I have also some motion graphic design experience.

Software that I'm familiar with

- Figma
- Adobe XD
- Photoshop
- Illustrator
- After Effect

I have worked with many different prototyping tools and frameworks – to avoid a full laundry list above, I've kept it to just my favorites. If you use a different prototyping tool that works well in your established workflow, I would be happy to learn it.

Design

A design is a plan or specification for the construction of an object or system or for the implementation of an activity or process, or the result of that plan or specification in the form of a prototype, product, or process.

- User Interface
- Web Design
- Web App
- Mobile App
- IOS APP
- Hybrid apps
- Android App
- Landing Page
- Product Design
- Dashboard Design
- Service Design
- Prototyping
